PROFESSIONAL SUMMARY

Full-Stack developer specializing in the MERN stack, with hands-on experience architecting production applications spanning JWT-based authentication, RESTful API design, role-based access control, and offline-first data synchronization. Built and deployed 3+ independent full-stack applications, demonstrating end-to-end ownership from database schema design to deployment on Render and Vercel.

TECHNICAL SKILLS

- Programming Languages: JavaScript (ES6+), TypeScript, Python, Java
- Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend & Auth: Node.js, Express.js, RESTful APIs, JWT Authentication
- Databases: MongoDB, PostgreSQL, MySQL, Redis
- Developer Tools: Git, GitHub, Docker, Postman
- Backend-as-a-Service: Clerk Authentication, Supabase, Render, Vercel
- Core Concepts: Authentication & Authorization, REST APIs, CRUD Operations, Responsive Design, API Integration, Agile, SDLC
- Tools: Cursor, GitHub Copilot, Antigravity

Professional Experience

Frontend Developer - Internship

Saiket System - Remote, Mumbai

November 2025 – December 2025

- Shipped 10+ production-ready pages tested for cross-browser compatibility across Chrome, Firefox, and Safari, by refactoring reusable React Components and resolving 5+ reported UI defects, reducing the UI bug backlog by 10%.

Frontend Developer - Internship

CodeXIntern - Remote, Mumbai

July 2025 – August 2025

- Translated 5+ Figma/UI-UX designs into production-ready React interfaces, implementing responsive layouts across mobile and desktop breakpoints using Tailwind CSS and component-driven architecture. 5+ reusable React components integrated into the team's shared UI library, reducing duplicate component code and accelerating feature delivery for subsequent sprints.

Web Developer - Internship

Elevate Labs - Remote, Mumbai

February 2025 – March 2025

- Designed and implemented 15 RESTful API endpoints supporting employee management CRUD operations, validating request/response schemas and building a Postman test collection covering 10+ edge cases to catch regressions before deployment.

Projects

Zero-Trust Auth Gateway [GitHub](#)

Tech Stack: [Node.js](#) · [Express.js](#) · [PostgreSQL](#) · [JWT Authentication](#) · [Docker](#) · [Redis](#) · [OAuth](#)

- Designed a zero-trust auth microservice implementing JWT refresh token rotation with reuse detection, invalidating the full session chain on token replay to reduce session-hijack risk.
- Implemented OAuth2 authorization code flow with PKCE from scratch (not via SDK), including manual handling of the redirect, state parameter, and code verifier/challenge exchange.
- Built Redis-backed token revocation and rate-limiting middleware to block brute-force login attempts, containerized with Docker for portable deployment.

Fin Track – Personal Finance & Expense Tracking Platform [Live Demo](#) | [GitHub](#)

Tech Stack: [React.js](#) · [Node.js](#) · [Express.js](#) · [PostgreSQL](#) · [Tailwind CSS](#) · [JWT Authentication](#)

- Architected an offline-first sync engine using a local storage queue, enabling users to record transactions without connectivity and resolving conflicts using a timestamp-based merge strategy upon reconnection.
- Built a full-stack finance platform with 3+ core modules (budgets, savings goals, shared expenses), backed by a normalized PostgreSQL schema and JWT-secured REST APIs.

NEXUS-HR Employee Management System [Live Demo](#) | [GitHub](#)

Tech Stack: [React.js](#) · [Node.js](#) · [Express.js](#) · [MongoDB](#) · [Tailwind CSS](#) · [JWT Authentication](#)

- Architected a full-stack HR management system with 3 role tiers enforcing permission boundaries via Express middleware guards across employee management, attendance, payroll, and leave-request modules.
- Implemented JWT authentication with access/refresh token strategy and built responsive role-specific dashboards using React and Tailwind CSS.

Education

B.Sc. Computer Science, University of Mumbai

D. G. Ruparel College of Arts, Science and Commerce | GPA: 8.35 / 10

June 2023 – May 2026

Certifications

[Full-Stack Web Development](#) – Apna College [May, 2024]
